

Chemstat® 1900/60DC

CHEMICAL NAME	Ester on Silica
CAS NUMBER	Proprietary
FUNCTION	Antistatic Agent
TECHNICAL REQUIREMENTS	Activity, % 58-62 Appearance.....White to Off White Powder
GENERAL DATA	Classification Nonionic Density @ 25°C..... 0.35 Pounds Per Gallon 2.92
APPLICATION	Chemstat® 1900/60DC is recommended as an internal antistat for polyolefins. The material is amine free and is in a easy-to-handle powder form. Please refer to the following page for FDA information.

Revision Date: 10.02.2021

Information presented herein has been given in good faith and to the best of our current knowledge and experience. The compliance of specific properties of the supplied product with the data given herein and its fitness for the intended purpose should be checked before the product is used. The producer reserves the right to modify the information presented herein as a result of technological development and improvement of the product by the producer.
